

THE NAIROBI HOSPITAL

ENVIRONMENTAL POLICY

The Nairobi Hospital is committed to managing environmental matters as part of our operations.

The Hospital Management is committed to:

- Implementing proactive environmental programs designed to prevent or mitigate activities that pose a threat to the environment.
- Ensuring compliance with all applicable legal and regulatory requirements.
- Championing the cause for conservation and prudent use of renewable sources of energy.
- Minimizing waste generated and working towards safe treatment and disposal of waste.
- Communicating the policy to stakeholders as appropriate.
- Periodic review of environmental objectives and targets.
- Continually improving our Environmental Management System.

Gordon Otieno Odundo
Chief Executive Officer
