

THE NAIROBI HOSPITAL

Press Release: The Nairobi Hospital Charity Fund Golf Tournament 2017

Nairobi, June 2017 - The annual Nairobi Hospital Children's Charity Fund Golf Tournament is scheduled to take place on Friday 30th June 2017 at The Karen Country Club. The event aims at raising funds for treating needy children with congenital heart conditions from economically disadvantaged backgrounds.

"This initiative has for the last 14 years provided an opportunity for needy children across the country to access treatment," said Mr. Gordon Odundo CEO, The Nairobi Hospital. Speaking at the cheque handover ceremony at the hospital's Anderson Centre, he further emphasized, "we firmly believe that this is a noble cause that we intend to run for the longest time possible and impact lives countrywide'.

Last year, the initiative raised over Kshs. 2.4 million from partnering corporates. This enabled the hospital to perform 11 heart surgeries for underprivileged children, majority of whom had no access to quality medical care and were destined to a premature death, but are now living a healthy life.

Notes to Editor

About The Nairobi Hospital Charity Fund Golf Tournament

The Nairobi Hospital Children's Charity Heart Fund was established in 2003 to provide a resource for treating needy children with congenital heart conditions from economically disadvantaged backgrounds. In this regard, the hospital hosts an annual golf tournament with the aim of raising funds to facilitate their heart operations.

In the year 2016, the contributions of over 2.4 million from our partnering corporates enabled us to perform 11 heart surgeries for underprivileged children, majority of whom had no recourse to quality medical care and were destined to a sickly life and premature death, but now living a better life.

This year all sponsorship pledges will not only cover the cost of operations, but also change the lives of children, families and even a community.
